

MCI occupies a leading position among institutes of higher education, both in Austria and abroad for its quality and customer-orientation. As an integral part of the unique 'Open University of Innsbruck' model, MCI bridges university with business by offering graduate, non-graduate and post-graduate programs. With the expansion of our operations we are inviting applications for the following position (m/f).

## Lecturer in Controlling, Finance, Accounting & Taxation

The successful candidate will teach in the fields of Controlling & Finance, Accounting & Taxation, proctor and create examinations, supervise bachelor's and master's theses, initiate and lead research projects and support us in further developing and designing study programs. The candidate is expected to have a PhD-level qualification, several years of professional experience as well as teaching and research experience, outstanding didactical skills, and an excellent command of English.

Applicants are expected to work team- and results-oriented and have a general understanding of working in a customer-service oriented environment. These qualities combined with reliability and a commitment to achieving outstanding performance are essential for this position.

**mentoring the motivated.**
