international management program[©].

Challenging competition in global markets

introduction.

In the face of rapidly changing global markets and growing competition, international business today requires broader perspectives, new skills, shifting competitive sets and technology-driven business models.

Contemporary management has to cope with new issues and growing challenges that will impact businesses and individuals around the world. The success of an enterprise is largely dependent upon the knowledge and skills of its decision-makers and their ability to conduct critical and systematic analyses of the situations confronting them.

This International Management Program[®] (IMP) has been developed in close co-operation with distinguished international academic in order to provide top-notch executive management training for decision-makers who deal with international competition.

benefits.

- help anticipate and assess critical management opportunities and issues
- identify trends and changes in industries and markets, both domestic and international
- show how to establish effective international networks, partnerships and alliances
- develop strategic thinking, planning and implementation capabilities
- provide knowledge for integrating and co-ordinating across functions to support overall strategy
- increase the effectiveness of interpersonal and organizational communication and behavior
- strengthen the leadership skills needed to motivate high-performance work teams
- enhance analytical and decision-making skills in key areas of management
- build an understanding of value and service as a process rather than as a series of functions
- provide perspectives for competing in a global marketplace without frontiers

The purpose of the International Management Program[®] (IMP) is to enhance the global perspective, strategic management skills and knowledge of high-achievement managers and executives. Designed for the experienced manager and structured around a small-class format, this program facilitates the transfer of knowledge and skills necessary to achieve the objectives mentioned above. On-site visits at high-level institutions complement classroom-instruction.

The International Management Program[®] (IMP) is taught by acknowledged international faculty in English throughout the whole course and schedules intensive seminar modules at renowned international partner universities abroad. There, MCI students attend joint MBA classes, benefit from the intercultural experience of an international student community and receive a separate certificate of the respective institution.

Graduates of this Executive Certificate program also receive credits for the MCI's General Management Executive MBA and Master of Science in Management & Leadership MSc, both of which have been awarded the Premium Seal by the Foundation for International Business Administration Accreditation (FIBAA).

Pricing		Business Ethics	
Channel Selection, Management, Logistics			
Financial and Competitive Impact			
SEMINAR DAYS TOTAL (Not including Preparation Work, Assignments, Case Studies, Project Works, Master Thesis, Exams etc.)		25 DAYS / 33 ECTS	

participants.

Program participants are middle and upper level managers who want to broaden their horizons and strengthen their skills in the art and science of general management, decision-making and leadership in the global marketplace.

Participants will contribute a variety of experience, perspectives and ideas to the program and in doing so inspire stimulating, pertinent and frank discussions both in and outside of the classroom. Managers and executives learn best when they are actively involved in the learning process and can make analogies between that process and their own professional lives.

Participants are expected to have a sound command of English. They must provide proof of a minimum score of 92 points on a TOEFL (Test of English as a Foreign Language), a minimum score of 6.5. on a IELTS (Academic) or equivalent (cf. European Reference Framework for Languages: Proficient User). Scores are valid for three years from the date of the test.

tuition.

The total participation fee amounts to € 9,980 and is payable in installments. This fee covers all lectures, extensive materials and documentations relating to the lectures, drinks provided during breaks, students' union fee and membership in the graduates' club MCI Alumni & Friends.

Three participants of the same institution may benefit from a price reduction of 10% for the third participant. For information on financial support see www.mci.edu/financial-support.

Applications may be cancelled subject to the General Terms and Conditions of the MCI. For details see section III of the Terms and Conditions provided on the reverse side of the application form.

course assessment.

MCI executive certificate courses involve practical work in the form of projects to ensure continuous transfer of the contents of the seminar modules to the student's own professional environment, and feedback to the course modules from the student's work experience and problems encountered.

Furthermore, they involve written exams with specific questions on the contents of each seminar module and culminate in a final paper which ideally addresses a question or problem from the student's own company or working environment and generates specific guidance or a plan of action for the student on completion of the course.

The final examination will be in front of a commission composed by the academic board. The criteria of approval is the positive assessment of all projects and the final paper.

faculty.

Lecturers for this executive education program are carefully selected from the faculty of the MCI, the University of Innsbruck, and other distinguished academic institutions which offer excellent academic credentials coupled with years of international experience.

Faculty members are widely recognized for their ability to work with managerial and professional groups. Each has consulting experience in his or her area of expertise. Featured speakers, well-known in both industry and academic circles, will provide the highlights of extra evening sessions.

voices.

The International Management Program® was one of the highlights within my executive MBA studies. Excellent lecturers, fellow students from all kinds of industries as well as the case-study based teaching approach have opened new perspectives.

DI (FH) Markus Amann, ThyssenKrupp Presta AG, Customer Business Unit Manager, Eschen / FL

Der Lehrgang International Management hat mir die nicht alltägliche Möglichkeit geboten, das bereits Gelernte im internationalen Zusammenhang zu sehen. Die Möglichkeit andere Lehrstätten und Vortragende kennenzulernen, stellte für mich ebenfalls eine Bereicherung dar. Abgesehen davon konnte ich mit meinen Kommilitonen in Boston, Milton Keynes und Mailand unterhaltsame Stunden verbringen, auch wenn wir einen anspruchsvollen Zeitplan zu absolvieren hatten.

Dr. Klaus Kandler, LL.M. MBA, Marktgemeinde Rum, Amtsleiter, Rum / Tirol

Management Center Innsbruck is one of the most respected, entrepreneurial, and responsive providers of management education in the world. Its offerings are unparalleled in their excellence and in meeting the constantly evolving needs of business leaders. At MCI, one thing is clear: excellence and innovation are paramount and are never compromised.

Prof. Dr. Todd A. Mooradian, MBA, BA, The College of William & Mary - Mason School of Business, Williamsburg / USA

Das International Management Program® war für mich das Herzstück des MBA-Programms am MCI Management Center Innsbruck. Ausgezeichnete Vortragende aus aller Welt verstanden es, die komplexen Vorgänge am Weltmarkt zu vereinfachen und verständlich zu machen. Die tollen Auslandsaufenthalte rundeten zudem das gesamte Programm perfekt ab.

Assoz.-Prof. Priv.-Doz. Dr. med. univ. Karl-Heinz Stadlbauer, Medizinische Universität Innsbruck, stellv. Bereichsleiter / Planungsmanager Ausbildung, Innsbruck / Tirol

MCI offers students a unique opportunity to develop world class management skills, working in partnership with an impressive team of international academics and institutions from many countries. It is always a pleasure to teach there and to be challenged by such enthusiastic students! MCI is a special place!

Prof. Joseph G. Nellis, BSc (Econ) MA PhD ILTM AcSS, Cranfield University - School of Management, Professor of International Management Economics, Director of Policy Strategy & Performance Community, Bedford / GB
