

## EXCELLENT RESULTS FOR MCI IN UNIVERSUM TALENT RESEARCH 2019

**More good news for the Entrepreneurial School®: The recently published results of the Universum Talent Research 2019 confirm the MCI's excellent results once again.**

The survey results demonstrate highest rates of MCI student satisfaction with their university. This equivocates to 8.1 out of 10 possible points, which clearly sets it apart from the Austrian average of 7.5. The students are particularly satisfied with the international recognition and international orientation of their university, the open and friendly environment at an attractive university location, and the pronounced prestige associated with an

MCI education, with regard to the development of individual careers and career paths. This is also reflected in the impressive evaluation of Career Services. The students scored this with an outstanding 8 points, while the Austrian average is 6.5 points.
